Connect

With Modesty

Take your training table to the next level by adding a modesty panel. Mix and match finish options to enhance the look of your table while giving everyone visual privacy. The hinged bracket attaches directly to the top of the training table, allowing the modesty panel to hang freely when the table is nested for storage or in use. The modesty panel is available for widths between 48" and 72" and measures 1/4 of an inch thick.
