Metal Base System

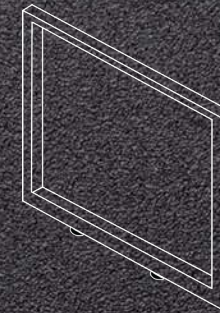

Fusion brings contemporary transformation to a traditional design with strength and stability. As a metal-based system, it creates endless possibilities to personalize any space. You can transform your space by integrating laminate and height adjustable products as your needs and workflow evolve. The powder coated metal bases are available in Silver, Black, and White which complement all finish options and adding a modern aesthetic to any office space.

Sleek + Functional

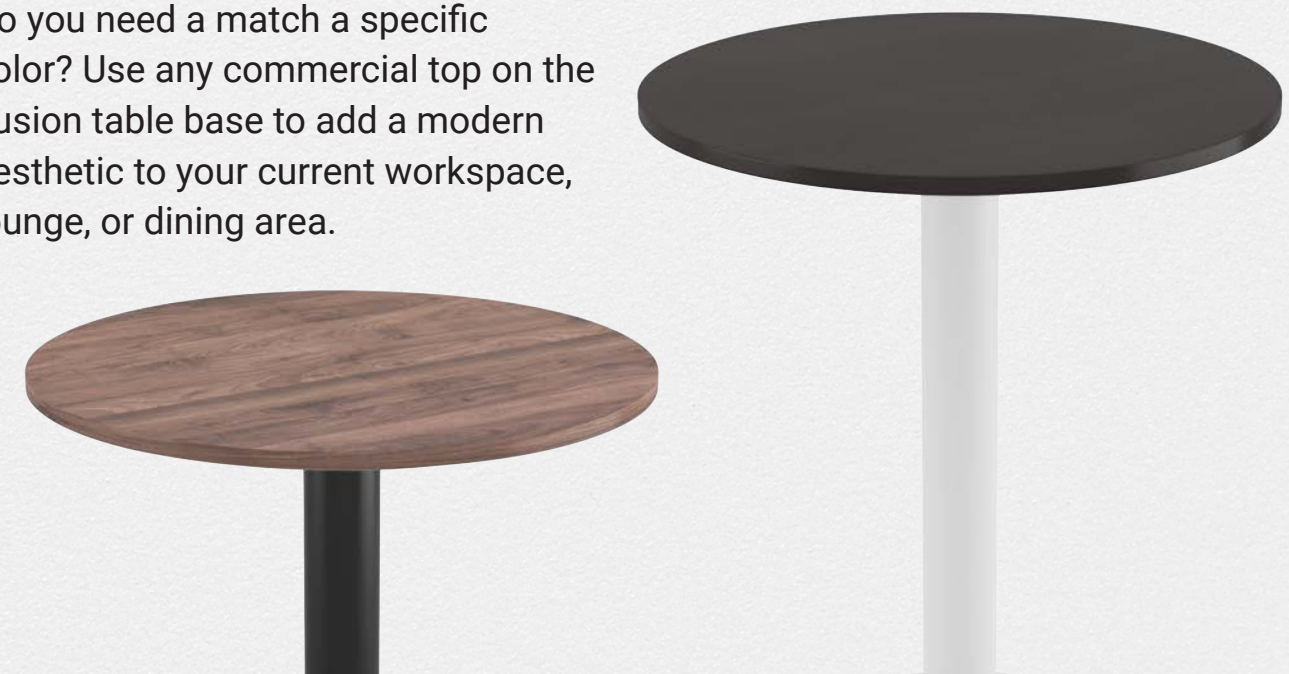

The Fusion metal base system is ideal for contemporary, open workspaces. What makes it great is the simple, elegant base system with adjustable support beam that allows adjustments to many standard widths to create spaces that fit together like a puzzle. You have options. Choose from our rectangular or L-shaped systems.

A Table for All Occasions

The Fusion system is not limited to desking. Round table bases are also available in 28" standard height or 40" cafe height and fit up to 42" round or square tops. Choose from silver, black, or white powder coated finish options that blend in seamlessly with any space. Kai laminate tops are available in six beautiful finish options.

Do you need a match a specific color? Use any commercial top on the Fusion table base to add a modern aesthetic to your current workspace, lounge, or dining area.

Idea Starters

The Fusion metal base system fully integrates with Kai laminate products and the iRize height adjustable desk line. The iRize bases match the powder coated finishes of the Fusion metal bases for a cohesive look. Kai products run deep with plenty of storage, desking, and accessories. With six laminate finishes to choose from, your workspace can be precisely what you need.
