Connect
Statement of Line

Model Number	NFT4872
Adjustment Type	Centered Paddle
Locking Positions	0° / 90°
Expansion Range	47.24" - 68.9"
Caster Type	Lockable Hardwood
Material	Powder Coated Steel
Weight Capacity	157 lbs
Recommended Top Width*	48" - 72"
Recommended Depth	24" - 36"
Finish Options	White (.WHT), Silver (.SLV), and Black (BLK).

Classroom Configuration

U-Shaped Configuration

24" x 48"

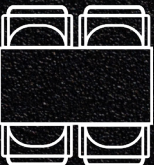

24" x 60"

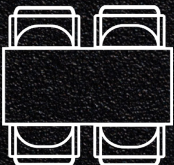

24" x 72"

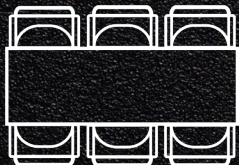

Breakout Configuration

30" x 48"

30" x 60"

30" x 72"

Conference Configuration

Meet Connect

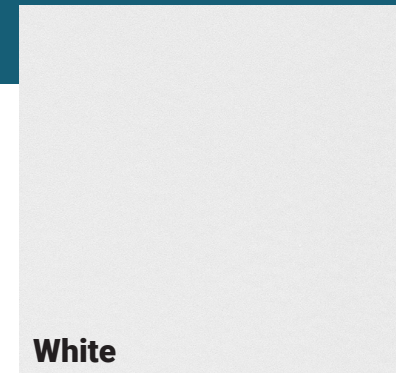

More Space. No Hassle.

Flip, nest, and lock into place. Connect training tables are engineered for long term durability. Made from powder coated steel in three neutral finish options, it pairs well with any top to create the perfect collaborative space. Connect is fully compatible with both Kai and Rayne laminate worksurfaces and modesty panels. It also matches iRize and Fusion bases, as they have the same coating. Top of it's class, Connect shines in universities, libraries, K-12 spaces, training centers, computer labs, convention venues, and fast-paced business settings.

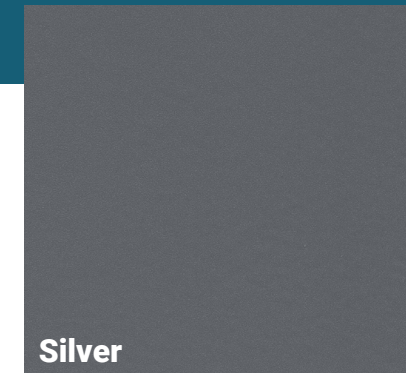

Training Table Bases

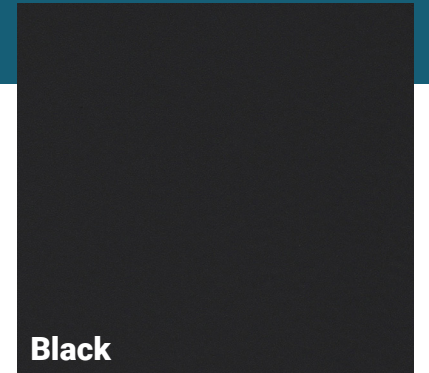

Connect Training Table nestable bases are 100% steel and available in three powder coated finish options, White, Silver, and Black.

White

Silver

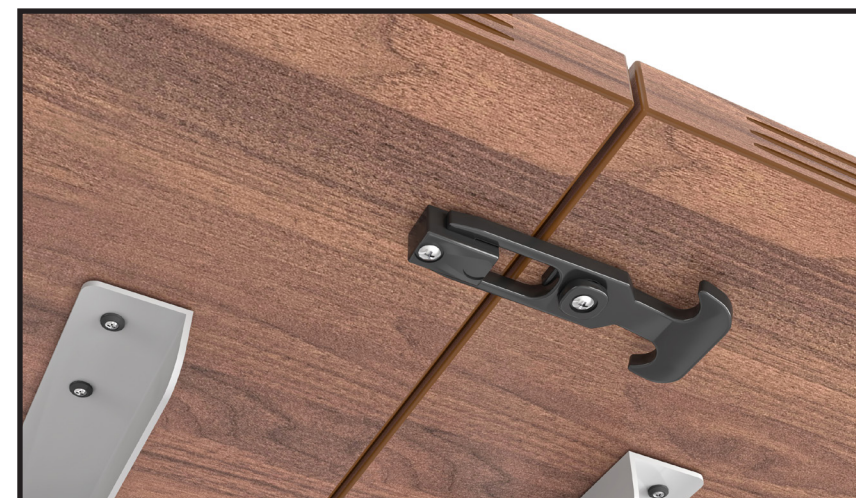

Black

Features

Connect Training Table Bases nest together to maximize storage space, allowing tables to stack neatly together when not in use. The base includes an easy-reach paddle that lets you flip the worksurface quickly. The base works with both 24" and 30" deep worksurfaces, and the adjustable crossbeam fits widths from 48" to 72". Each base comes with both glides and casters, so you can stay in place or move as needed. The design supports up to 154 lbs, giving you reliable strength for everyday use.

Ganging Latch

Connect Training Table bases link together using the Ganging Latch, an underside component that locks tables into place. This mechanism enables seamless connections across a wide range of configurations, supporting dynamic layouts.

Mix, Match, Move.

Connect, learn, and collaborate with layouts that move the way you work. Connect Training Tables integrate easily with both Rayne and Kai laminate casegoods, giving you a clean, coordinated look across the space.

Connect + Rayne

Connect Training Tables integrate seamlessly with Rayne laminate worksurfaces and modesty panels, creating a coastal-inspired design in your training areas.

Connect + Kai

Pair Connect Training Tables with the Kai laminate collection to create a streamlined, timeless look that supports high-traffic learning zones.

Store with the optional hinged modesty panel effortlessly in both Kai and Rayne finishes. Engineered for maximum space saving potential at the simple lift of the center paddle.
